DETAILED ACTION

Receipt is acknowledged of the election filed 11/19/02.

Election/Restrictions

After considering applicant's arguments, the election of species is hereby withdrawn. The invention is not defined by the bioactive to be delivered.

Claim Rejections - 35 USC § 112

Claims 1-40 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In particular, although applicant claims a bioimplant formulation which does not contain lecithin as a pore forming agent, the specification sets out at page 12, lines 1-3, that lecithin is "...the most preferred pore-forming agent...". The claims are therefore rendered unclear since they seem to contradict what is taught in the specification.

Clarification is requested.

The closest prior art (Trigg et al), claims a formulation having a peptide agonist or analog, stearin and lecithin. This patent is cited of interest.
